

ALARMNI SUSTAVI SECURE d.o.o.

Subject: Letter of intent - security systems
Main business activity - private protection
Specialization - financial institutions protection

Goran Petak, spec.sec.ing.

Zagreb, 2018.

Zagreb, 2018.

Dear Sir/Madam,

We would like to offer our services and expertise to assist you with designing and implementing security systems in order to protect your employees and your business. Let us briefly introduce our company, Alarm Systems Secure d.o.o., a fairly new company to the Croatian market. We are specialized in all types of technical security and fire alarm systems, with special emphasis on the protection of money institutions. Our founders have a 20-year work experience at all levels of business processes within the industry so that for each niche product, or for each client, they can create optimal protection solutions in accordance with the applicable legal framework. Through years of doing business, we faced a wide range of challenges in security and introduction of new technologies. We continually monitor the market development and the needs of our clients. We also confirm our quality through cooperation with the largest manufacturers of technical protection systems in our business, such as:

DSC, HONEYWELL, BOSCH, PARADOX
anti-burglary

KABA, JANTAR, KANTECH, ROSSLARE
access control

SYAC, SONY, SAMSUNG, BOSCH, AVIGILON, DVC, MARCH
NETWORKS, INTELLIO, PELCO, DEDICATED MICROS, G4S
video surveillance

NOTIFIER, BENTEL, NSC, BOSCH, POLON ALFA
fire-alarm

MACTWIN, IOIMAGE, ELVOX i dr. bespoke systems, fits users needs perfectly

In our services of private protection we include:

- risk assessments and security surveys
- drafting of preliminary projects and security system's project tasks
- security system design
- consulting and system implementation supervision
- installation and maintenance security systems (anti-burglary, video surveillance, CCTV, access control, product protection, time control ...)
- production of various system installations
- active participation in the development of client's security policies

We also offer integration of multiple security systems (fire-alarm, anti-burglary, CCTV, video surveillance, access control, gas detection) into a unique protection system and integration with the computer system of the user.

Thanks to our strive for top quality, long experience, and constant market monitoring, we have developed over the years in renowned specialists whose name is confirmed and guarantees quality.

The company owns a license issued by the Republic of Croatia Ministry of the Interior for private security activities, confirming its professionalism. Apart from the license, we have a rich experience in integrating the protection system in business and residential facilities, financial institutions and commercial objects.

ALARMNI SUSTAVI SECURE d.o.o.

In conclusion,

By setting ourselves high business standards over the years we have become reliable, responsible and dynamic specialists, fast in identifying market demands. Guided by high ethical standards and thus providing our customers with a lasting business security, we have created top-quality service and positioned themselves in a high position in the technical protection industry in Croatia.

With individual approach to each project, taking into account the specifics of business, we develop solutions tailored to the needs of our clients by helping their experience and knowledge to solve the problems that arise in a particular sector. We are ready to present you the latest technology solutions in the field of our business and our own expert knowledge to assist in their design and implementation.

We also provide you with a shortened reference list of our previous clients, and for any further information, don't hesitate to contact us via
